UNFINISHED BUSINESS

Proposed Regulations 8.10.2.1, 9.2.1.1.1.4, and 10.4.2.17

Ms. Singh said the purpose of the hearing was to consider adoption of the proposed amendments to the Board's regulations. The amendments, if approved, will become part of the Board's final Rules and Regulations. Pursuant to the Administrative Procedures Act at 29 Del. C. §10115 notice of the proposed amendments to the Rules and Regulations were published in the December 1, 2014 Delaware Register of Regulations. Ms. Singh marked as Exhibit #1, affidavits of publication from the News Journal, and Exhibit #2, affidavits of publication from the Delaware State News, as notice of today's hearing. No written comments were received and there were no public comments. Pursuant to 29 Del. C. §10118(a) the public comment period will remain open for 15 days, and written comments will be accepted by the Board 15 days after today's date. The Board will deliberate on any comments received at its next regularly scheduled meeting.

Regina Taylor, RN – Ms. Singh provided the new members of the Board with an overview of the Hearing Officer process. She stated Ms. Taylor's Hearing Officer Recommendation was brought to the Board for review at their November 2014 meeting. At that meeting, the Board had questions with regard to the Findings of Fact. Points for clarification were the prescribed dose to the child and whether Vistaril was prescribed and/or administered by Ms. Taylor. Dr. Contino confirmed with Ms. Singh that the Chief Hearing Officer, Roger Akin, attempted to get clarification of these details but was not successful in obtaining any additional information. Ms. Singh stated that she agreed with Mr. Akin's suggestion and that the Board needs to base their discipline on the findings of fact, outlined on page 5 starting at #1 – #15. After much discussion, Ms. Halpern made a motion, seconded by Ms. Darling, to increase the proposed 6 months' probation to one year, and require Ms. Taylor to complete nine acceptable contact hours within 60 days of the date of the final order. By unanimous vote, the motion carried, with Ms. Lane abstaining.

Mr. Mangler said since Ms. Taylor does not have a Delaware license she can only have her privilege to practice disciplined, and said if she becomes licensed in Delaware her license will then be placed on probation. He said the discipline will be reported to Tennessee and any other state she is licensed in.

COMMITTEE REPORTS

Practice and Education Committee

Dr. Contino said the committee met on December 16, 2014. The Delaware School of Nursing's annual reports were reviewed.

Margaret H. Rollins School of Nursing at Beebe Medical Center: Dr. Contino reported they had an NCLEX-RN pass rate of 88.4%. He said the report was well written and indicated an attrition rate of 43.6%. A root cause analysis was conducted with no significant findings. The motion of the committee was to grant full approval for one year which was unanimously approved by the Board.

Camtech: NCLEX pass rate of 31.82%. Dr. Contino reminded the Board that they voted to withdraw approval in early 2013. Camtech appealed the decision but the decision was upheld. The last students should have graduated in February 2014. The committee had no further recommendation.

DIHS: NCLEX-PN pass rate of 0% with one student taking the NCLEX-PN exam. The school is closed; therefore, no report was received. The committee had no further recommendation.

Delaware Skills Center: They had a NCLEX-PN pass rate of 95.24%. The committee received additional information regarding their curriculum and faculty profile that was previously requested. The motion from the committee was to continue full approval for one year which was unanimously approved by the Board.

Delaware Skills Center LPN Refresher Program: It was reported that there was only one cohort with six enrolled and four progressing through the program. There was no difference in employment rates at six and nine months. It was noted that there was a change in funding starting in 2015. The committee recommended full approval for one year, with clarification on the curriculum to be submitted in next year's annual report. The motion from the committee was unanimously approved by the Board.

DelCastle: NCLEX pass rate of 0%. Dr. Contino said three students took the exam and all failed. The school closed voluntarily on June 30, 2013; therefore, no report was submitted. Students graduating from this school can take the NCLEX exam until June 2018 and then their NCLEX code will be terminated. No motion was necessary.

Delaware State University: NCLEX-RN pass rate of 47.22%. The committee noted this is the 5th year they have fallen under the 80% NCLEX pass rate standard. Dr. Contino said there was a question about their full and part-time transfer students. They reported a 29% response rate but the data was not reported. They reduced their admitting class size from 48 to 24 students, and plan future curriculum revisions. Dr. Contino reminded the board members that a new Chairperson started at Delaware State University a year ago, and he stated they had a site visit from ACEN this past fall but the committee had not received the results yet. The motion from committee is for conditional approval with probation for one year, with the interim action plan due July 1, 2015. The report needs to include the ACEN site visit results and recommendations, and proposed curriculum changes, with a detailed action plan that includes a specific timeline to improve their NCLEX pass rate as well. The pass rate needs to be above 80% by 2020. The reason for the longer timeline is because they are a Baccalaureate program and it will take 4-5 years to see the results of changes implemented. The motion from the committee was unanimously approved by the Board.

DTCC, Owens Campus, LPN Refresher program: There have been no students in the program since 2011. Four students are needed to run the program. The motion from committee is to grant full approval for one year with the understanding that they'll only run the program when they have a significant number of students. The motion from the committee was unanimously approved by the Board.

DTCC, Owens Campus, PN Program: NCLEX-PN pass rate of 94.25%. They had a high attrition rate for full and part-time students. The report from the Owens campus said they are adopting the Terry Campus PN curriculum, but there was no information to report as to whether the philosophy and missions are the same. The committee asked for further clarification in their next annual report. The motion from committee regarding the Owens Campus PN program is to continue full approval of their PN program for one year. The motion from the committee was unanimously approved by the Board.

DTCC, Owens Campus, Associate Degree Program: NCLEX-RN pass rate of 77.22%. The committee noted this was the second year they fell below the 80% pass rate. Dr. Contino said attrition is high and the committee questioned whether they should perform a root cause analysis to see what is causing the high rate of attrition. Dr. Contino reminded the board that all Del Tech Campuses are aligning their associate degree program curricula. The committee recommended full approval of their program for one year and to consider doing a root cause analysis for the high attrition rates. The motion from the committee was unanimously approved by the Board.

DTCC, Stanton Campus, RN Refresher Program: This program had one class this year and employer surveys were not completed. Students did evaluations but the results were not reported to the committee. The program has 46 hours of theory and 80 hours of clinical and they noted an increase of six hours of theory as a bad weather cushion. The committee recommended full approval for one year and requests next year's report to include more detail regarding the survey data. The motion was unanimously approved by the Board.

DTCC, Stanton Campus, RN Program: NCLEX-RN pass rate of 79.2%. The committee noted it was their first year in many years that they were below the 80% rule. The report identified pro-active strategies for improving their NCLEX results. The committee recommended continued full approval for the RN program for one year. The motion was unanimously approved by the Board.

DTCC, Terry Campus, PN Program: NCLEX-PN pass rate of 100%. Dr. Contino congratulated Ms. JoAnn Baker who was in the audience, for achieving this pass rate. No substantive changes to the curriculum were submitted. The committee recommended full approval for the LPN program for one year. The motion was unanimously approved by the Board.

DTCC, Terry Campus, Associate Degree Program: NCLEX-PN pass rate of 89.42%. Dr. Contino said there was some confusion about the numbers in the report and the committee will be revising the enrollment and NCLEX reports to better reflect the student numbers sections. Fiscal resources were exceptional for this program. The committee recommended full approval for one year. The motion was unanimously approved by the Board.

Leads School of Technology: NCLEX-PN pass rate of 31.82%. The committee noted this is the 7th consecutive year the program has not met 80% rule standard for first-time test takers and Leads has never received full approval. An action plan was submitted in 2012 to correct the NCLEX deficiencies and the committee gave the program until 2014 to correct the deficiencies. The committee recommended withdrawal of initial approval of the LEADS PN Program, with the right to a hearing before the full Board of Nursing. The motion was unanimously approved by the Board.

Polytech Adult Education Program: NCLEX-PN pass rate of 73.68%. This is the first time the LPN program fell below the 80% rule. Dr. Contino said the Chair of that program is also a committee member and therefore recused herself from this recommendation. The committee recommended full approval for one year. The motion was unanimously approved by the Board.

University of Delaware: NCLEX-RN pass rate of 86.58%. Their report included data for all three of their RN preparation programs- the traditional BSN program, the accelerated BSN program, and the RN to BSN program. There was a slight increase in their total credit hours, from 120 to 122 hours, due to increasing their simulation and field experiences. The committee recommended continued full approval for one year for all three programs. The motion was unanimously approved by the Board.

University of Delaware, RN Refresher Program: There were 87 students enrolled with 48 completing the program. Twenty students are still in progress, while 19 have not completed the program, giving an attrition rate of 25%. The committee recommended full approval for this RN Refresher program for one year. The motion was unanimously approved by the Board.

Wesley College: NCLEX-RN pass rate of 84.62%. This is the second year they are above the 80% rule. Ms. Tyranski said the committee recommended full approval for one year. By majority vote the motion passed, with Dr. Contino recusing.

APN Committee

Dr. Williams said the committee met on November 24th and the committee's main focus continues to be the Consensus Model legislation. A letter was submitted from the APN Committee to The Division of Professional Regulation in November 2014 to move forward with the legislation. The committee also discussed clarifying the different APN roles, specifically looking at Family Nurse Practitioners working in the psychiatric specialty. Recently, there were concerns voiced regarding the scope of practice for Family Nurse Practitioners providing psychiatric care. All APNs should practice within their scope of practice based on their educational preparation and national certification. At this time, NCSBN does not have an established set standard for Family Nurse Practitioners working in the psychiatric specialty.

Mr. Mangler stated that the Board now has a total of seven bills being presented to the legislature, including the five Dr. Williams outlined. The next meeting is scheduled for January 26th.

PRESIDENT'S REPORT

Dr. Contino wished everyone a Happy New Year. Mr. Brown and Ms. Devereaux introduced themselves and Dr. Contino welcomed them to the Board. He thanked all Board members for all their

hard work and commitment to the Board of Nursing.

EXECUTIVE DIRECTOR'S REPORT

Dr. Zickafoose was attending a conference. No report was given.

The Board took a short recess from 10:05 a.m. to 10:15 a.m.

NEW BUSINESS BEFORE THE BOARD

LICENSEE APPLICATION REVIEWS

By Examination

Jacqueline Donofrio, GPN

Ms. Donofrio graduated from Delaware Technical Community College, Terry Campus in May 2014. Her Criminal Background Check showed Conspiracy 3rd Degree on 10/19/2005. Her letter of explanation stated she was in the wrong place at the wrong time. Ms. Donofrio stated she was innocent and shouldn't have been arrested. She answered 'yes' to question #19 and stated, "One misdemeanor of conspiracy to the third in October of 2005." Disposition paperwork, a letter of explanation, and two letters of reference were submitted. After Board discussion, Ms. Halpern made a motion, seconded by Ms. Nellius, to grant a waiver for Ms. Donofrio to sit for the NCLEX exam. By unanimous vote, the motion carried.

By Endorsement

Jason Furgiuele, RN

Mr. Furgiuele graduated from Sewickley Valley Hospital School of Nursing, PA on 6/11/2004. He answered 'yes' to question #27 and stated, "Alcohol and narcotic addictions, currently in voluntary recovery program and monitored by Pennsylvania PEER Assistance Program." He submitted a statement of explanation and documentation from PNAP stating he is in full compliance with their program. Dr. Contino explained to the new members on the Board that in the past the Board has granted a waiver with the contingency of the applicant being co-monitored by DPHMP. He said Mr. Furgiuele has stated he is willing to be co-monitored. After Board discussion, Ms. Udealer made a motion, seconded by Dr. Williams, to grant approval of licensure by endorsement for Mr. Furgiuele contingent upon enrollment for co-monitoring in the DPHMP. By unanimous vote, the motion carried.

Robin Bartholomew-Sacer, LPN

Ms. Bartholomew-Sager graduated from Suffolk County Community College, NY on 12/23/1999. In her letter of explanation she stated that she went through an RN program at Suffolk Community College, where she received her Associates Degree, but then was unsuccessful at passing the New York State Registered Nursing Boards. She submitted her application for licensure by endorsement but does not have a transcript showing her LPN education. A speed memo, however, clarified that New York allowed her to take the PN exam based on her AD education, which she passed in 2004. She is currently licensed in NY as an LPN. After Board discussion, Ms. Tyranski made a motion, seconded by Ms. Halpern, to approve licensure by endorsement. By unanimous vote, the motion carried.

Karen Dunham, RN

Ms. Dunham graduated from Ona M Wilcox School of Nursing, in CT in January 1986. She answered 'yes' to question #18 that her license was disciplined and stated, "in Colorado / Massachusetts" as her response to the question. In Colorado she was found to be practicing beyond the scope of practice. In Massachusetts the letter stated she was placed on "probation for six months since she had been employed in the graduate status without legal right." The Colorado board order was supplied, and verification from Massachusetts confirmed license discipline in that state. The Massachusetts Board of Nursing confirmed she had a Massachusetts license which is now expired. She has no current

discipline and the probationary status was removed on May 17, 1987. After Board discussion, Ms. Lane made a motion, seconded by Ms. Darling, to approve licensure by endorsement. By unanimous vote, the motion carried.

Lori Skye Ryan, RN

Ms. Ryan graduated from St. Vincent's Hospital School of Nursing in 1990. She marked "Yes" to question #27 stating, "In recovery for alcohol - sober for many years." Ms. Ryan participated in the Maryland Board of Nursing Rehabilitation Program and was recently discharged with a certificate of successful completion from the program. She also submitted letters of explanation as well as an email from her sponsor. After Board discussion, Ms. Nellius made a motion, seconded by Ms. Lane, to approve licensure by endorsement. By majority vote, the motion carried, with Ms. Halpern and Ms. Tyranski opposing, and Dr. Contino abstaining.

Erin O'Connor, RN

Ms. O'Connor graduated from Widener University in May 2010. Her criminal background check showed Theft by Deception in New Jersey on December 14, 2012. Her letter of explanation stated at the time of her arrest she was dealing with personal issues and suffering from addiction. She stated she entered a treatment facility and turned her life around. She answered 'yes' to question #18 and stated, "New Jersey" as her response to the question. She answered 'no,' however, to questions #25 and #27, which are questions that ask about criminal or substance abuse history. Disposition paperwork and three letters of reference were submitted. Ms. Tyranski said she had a problem with her not disclosing her substance abuse history on her application. After Board discussion, Ms. Tyranski made a motion, seconded by Ms. Udealer, to Propose to Deny Ms. O'Connor's application. By unanimous vote, the motion carried. After the Board's decision Ms. O'Connor stated from the audience that she would like to withdraw her application. Ms. Singh advised her to call the division to petition to withdraw her application in lieu of a hearing, and her request would be put on the February agenda to be heard by the Board.

By Reinstatement - None

Advanced Practice Nurse

Ernestine Davis, RN

Ms. Davis graduated from Newman University in August 2014 with a Master's degree in nursing. She passed her Gerontological Nurse Practitioner Certification Exam in April 2005, and she retook the exam in April 2012. Her certification is now valid until April 2017. She was initially licensed in Pennsylvania in 2004 and currently holds a PA Gerontology APN license which expires 4/30/15. Her letter of explanation stated she was unable to find a job in Pennsylvania due to an unreasonable travel distance. She has not practiced as a Gerontological Nurse Practitioner and she does not meet our practice hour requirements. Dr. Contino said the APN Committee felt she would need a Supervised Practice Plan with which to complete 600 hours, as she does not have the practice hours set forth in the Board's rules. Dr. Williams made a motion to grant Ms. Davis a Supervised Practice Plan and temporary practice permit to complete the required 600 hours, seconded by Ms. Deveraux. The motion passed unanimously. The temporary permit will be granted upon review and approval of a Supervised Practice Plan by the Executive Director of the Board.

LICENSURE ISSUES

Katherine Bowers – Petition to Vacate the Suspension

Ms. Bowers was represented by her attorney Michelle Allen. Ms. Singh explained the request to vacate suspension was based on a series of emails between Ms. Bowers and Christa Lee at the DPHMP. Ms. Singh stated that Ms. Bowers contacted Ms. Lee before the November Board meeting and was advised by Ms. Lee that she had ten days to submit the application; however the Board met two days later and suspended her license for non-compliance. The Board was provided with the Petition to Vacate, as well as a copy of the emails that were sent between Ms. Lee and Ms. Bowers. Ms. Allen requested the suspension be vacated and Ms. Bowers be provided fifteen days to enroll in the program. Board members confirmed that Ms. Bowers currently has the application for enrollment in the DPHMP. Ms. Lane made a motion, seconded by Mr. Brown, to approve Ms. Bowers' request to vacate suspension and requested that she complete the application to enroll in DPHMP within ten calendar days from the date her license is placed back on probation. By majority vote, the motion carried, with Ms. Deveraux abstaining.
